Dear Customers,

We would like to inform you that the plugins for: OpenCart, WordPress/WooCommerce and Magento developed by Borica AD are available on its official web-page: Point of Sale Virtual Terminals (vPOS) | BORICA AD

The download and use of the plugins is completely free for virtual traders and we hope that this solution will significantly facilitate you and make the integration of sites to BORICA system significantly easier and faster.

If you need additional information and assistance, you can contact: 3Dsupport@UniCreditGroup.BG
