UniCredit Bulbank

INSTRUCTION **M-TOKEN ACTIVATION** through BULBANK MOBILE

download and install the UniCredit Bulbank mobile banking app from the app store on your smartphone - Google Play, App Store and Huawei App Gallery

M-TOKEN Activation Follow this instruction to activate M-token

M-TOKEN ACTIVATION

- Open Bulbank Mobile and select "M-token".
- Review and follow the steps to activate an Mtoken by selecting the "**Next**" button.
- Enter the M-token ID, from the received e-mail message and the received SMS activation code. Select the "Next" button.

M-TOKEN CONFIGURATION

- Set up your PIN code for logging into M-token. It has to be minimum 6 - maximum 8 digits long, consecutive (123456) or identical digits are not allowed. Remember your PIN code well!
- Remember the country flag, which will be displayed when the PIN is entered correctly at each login.

Enjoy banking with M-token!
